

Looking for every GTA 4 cheat code? In Grand Theft Auto IV you activate cheats by dialing a phone number on Niko's in-game cell phone, and the same numbers work identically on Xbox 360, PlayStation 3 and PC. Use them to restore health and armor, spawn cars, boats and helicopters, change the weather or wipe your wanted level in seconds. Note that some cheats permanently disable specific Achievements/Trophies in your current save, and none of them work in GTA IV multiplayer.

Save before you use cheats: many cannot be switched off and some can break missions. Single-player only.
